VOTING GUIDELINES

Important: Voting is available only for sessions that have been arranged with the Congress organizers prior to the Congress.

The person(s) responsible for managing the voting during the session (Chair, Co-Chair, Moderator, or Speaker) should arrive at the session hall **15 minutes before the start of the session** to meet with the technician, review the voting questions and answer options, and confirm the voting sequence and process.

AT THE START OF THE SESSION

Please inform attendees that voting and polling will take place during the session and they can participate **via the Congress App**

To access the voting feature:

- Open **PROGRAM** from the main menu.
- Select **Interactive Program**.
- Locate the session using the date and time.
- Open the session and select **Interactive Features**.

Please remind attendees that voting questions will only appear once polling has been opened during the session.

DURING THE SESSION

- At the appropriate time, please request that the voting slide is displayed.
- The technician will display the voting slide.

- Read each question and the available response options aloud, then invite attendees to participate by saying: **"Please submit your vote now."**
- At this point, the hall technicians will activate the poll in the **Congress App**, allowing attendees to submit their votes.
- When you are ready to close the poll, announce: **"The voting is now closed."**
Or **"Please close the voting."** This will signal the onsite technicians to close the poll and display the audience results.
- You may wish to briefly comment on the results before continuing with the session.
